

**WEIGHT NO MORE PATIENT FINANCIAL RESPONSIBILITY AND INSURANCE
COVERAGE**

Note that some insurance companies will cover your visits for weight management. However, it is your responsibility to find out if you have coverage - we cannot guarantee coverage. Some companies will also limit how many visits you can make for weight management per year.

Please remember that often your insurance coverage includes a deductible and your visit for weight management might not be paid by insurance if you have not met your deductible amount for the year.

Also, if you have an outstanding balance you will need to pay this balance before being seen by a provider.

If you wish to pay for your visit via cash or credit card you may do so, the charge is \$ 182 per visit.
